APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, manner and place of use of a portion of the waters of an underground source as heretofore granted under Permit 30362, Certificate 9383 is issued subject to the terms and conditions imposed in said Permit 30362, Certificate 9383 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This temporary permit is issued with the understanding that it must be used in conjunction with land covered by Walker River Decree or storage rights.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on September 14, 1993 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.0031..... cubic feet per second, or sufficient to water 100  
head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before.....
